Our entire community was shocked Tuesday morning on hearing of the death of the young man whose name stands at the head of this tribute to the memory and virtues of one universally respected and beloved, and whose untimely demise leaves a void in the heart of a devoted young wife, and in those of a large number of fond relatives and friends which time, the great remedy for so many misadventures, cannot fill.

J. Taylor Collier was born November 2nd, 1857, and, consequently, was twenty-three years, ten months and nineteen days old.

June 1st, 1881, he was married to Miss Maggie Mosely, daughter of Judge R. S. Mosely, of this place, and the story of his life was spanned by the bright bow of hope and love, and there seemed to be nothing but happiness in store for the youthful hearts which started on the journey with so many a heart-felt "God speed" from "loving friends. But alas! the sky so bright is now dark with the shadow of death, and his child breath has taken away one of the brightest ornaments of the community in which he lived.

Mr. Collier came to Hartford from his home at Island Station about October 1st on a visit to his wife's parents and was taken sick within a day or two after his arrival here. His disease was typhoid fever, which was thought to be of a mild type until Sunday evening when he commenced to grow rapidly worse, and by Monday evening it was apparent to all that his life was ebbing away and that the tide would soon turn. At two o'clock yesterday morning his spirit took its flight leaving many an aching heart behind.

The funeral will take place from the residence of Judge R. S. Mosely this morning at nine o'clock, Dr. W. P. Bennett, of Island Station, officiating. The remains will be interred in the Hartford cemetery immediately after services.

The stricken family have our warmest sympathy in their sad bereavement.

L. Spikes, successor to Spikes & McGraw, dentists, of Ohio and Michigan, is permanently located at South Carrollton, Ky. I will be at King's Hotel, Hartford, Ky., on the 1st, 2d and 3d days of March, 1881, and on the same days of each month following. Teeth extracted without pain by a new process, using neither gas nor chloroform. Artificial teeth a specialty—all styles and prices. Old plates repaired as good as new. Gold and silver fillings from one dollar up. I will go to the house of any person living at a distance who wants a new set of teeth, and extract teeth without extra charge. Parties desiring my services may notify me by mail, or otherwise, at South Carrollton. Will also be in Greenville on County Court days. I will do all work at same price that you can get it at Owensboro or Louisville.

The average age of the brides mentioned above is about thirteen years; that of the grooms about nineteen. Such a concentration of juvenile coquetry seldom occurs quite rarely, at least in these parts.

Miss Mollie Lawton, of Rockport, will lecture at Salem on Nov. 5th, on the subject of Temperance; South Carrollton Nov. 10th, on the subject of Cultivation and Development of the Mind; Calhoun Nov. 12th, on same subject; Livermore Nov. 14th, on same subject; Rockport 4th Saturday night in Nov., on the subject of Temperance.

The following statement of William J. Connelley, of Sonerville, Mass., is so remarkable that we beg to ask for the attention of our readers. He says, "In the fall of 1876 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines, and was so far gone at one time that I went around in a coffin. I gave up hope. I had a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I bought it at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and today I feel in better spirits than I have for the last three years.

I write this hoping you will publish it, so that every one afflicted with diseased lungs will be induced to take Dr. Wm. Hall's Balsam for the Lungs and be convinced that consumption can be cured. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work."
